## Novel Porphyrins and Their Metal Complexes

By Hanaa Mansour

LAP Lambert Academic Publishing Dez 2013, 2013.

Taschenbuch. Book Condition: Neu. 220x150x8 mm. This item is printed on demand - Print on Demand Neuware - This book dealing with porphyrins chemistry, as its introduction is gathering a lot of published work in different porphyrins chemistry (natural and synthetic). The second part is my Ph. D. work in Erlangen with Priv. Doz. Dr. N. Jux which I would like deeply to thank him for his help in this new field for me. This work depending on starting model was known in Jux group, modifying of this starting porphyrins in order to obtain new chiral porphyrins with different metal complexes. Zinc, Nickel, Copper, Cobalt and two oxidation states of Manganese was synthesized (paramagnetic green Mn(III) and diamagnetic red Mn(V) porphyrins). This work was a hard three years work in the lab. with sometimes surprising results. synthesis and characterisation of novel porphyrins and their metal complexes was accomplished, utilizing modern porphyrin chemistry and spectroscopic tools such as NMR, IR, UV/Vis spectroscopy, FAB mass spectrometry, cyclic voltammetry and elemental analysis. 136 pp. Englisch.

### Reviews

*This ebook is really gripping and fascinating. it had been writtern extremely perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Leopold Hills**

*Totally among the finest publication I actually have at any time study. I am quite late in start reading this one, but better then never. I found out this publication from my dad and i suggested this pdf to discover.*
