# Geological Mapping and Structural Analysis

By Azeem Khan

LAP Lambert Academic Publishing Nov 2013, 2013.

Taschenbuch. Book Condition: Neu. 220x150x4 mm. Neuware -

The book is intended as a comprehensive discussion of the most fascinating and valuable aspect of Structural Geology that is geological mapping and structural analysis. The author has strived to present the subject as an attempt to understand some basic concept about geological mapping and structural analysis by some manual technique as well as using geological software. A geological satellite image from Google Earth was used as a base map. The work was done to confirm the structural style of the area focusing on geological cross-sections and the minor features related to them. Dip and strike data was collected at suitable places and plotted on the geological map. Corel draw was used to draft the geological map of the area. The book begins with the introduction of the study area, its tectonic setting, then stratigraphy and finally followed by structural analysis in which geological cross section and Rose diagram are made in order to endorse the structural style of the area. Here almost a practical approach is made based on a specific area which is beneficial and provides good results for researcher and undergraduates. 72 pp....

## Reviews

*Complete guideline! Its this type of great read through. it absolutely was writtern quite perfectly and helpful. I am very happy to explain how this is basically the best book i actually have read through during my personal life and can be he very best book for at any time.*

-- **Joshua Gerhold PhD**

*A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.*

-- **Meagan Roob**
