Date :2009-04-01 version 1. That Word. in your mind will immediately think Typing Text entry Yes. Word can do the job. but its ability does not stop there. If you can pay more attention to some of it. I believe that is bound to greatly increase your productivity. which are derived from the powerful Word word processing functions. 8020 rules I believe we have heard. is that 20% of the functionality the software used by people. while the remaining 80% of the people were cold. We usually only as a type to Word or text entry tool. which is only 20% see the Word and even fewer features. but not really open Word itself has a strong word processing and typesetting functions. It is precisely because people are busy all day working the Stone Age hand-layout document. rather than the modern computer technology. automation technology can achieve. The purpose of this book is to be able to write the remaining 80% of Word's features excavated. allowing you to take advantage of Word's automation capabilities provide rapid completion of each layout task. Of course. the book referred to is not limited to professional typesetting typesetting work. also including in the document typesetting and layout-related activities. including writing large documents. thesis. summary report of various disciplines. writing books or articles. and other work. If the documents have been arranged in Word allows you to physically and mentally exhausted. and you trying to explore the advanced features of Word. unknown. then this book is for you. it can save you the time to explore the advanced features of Word. so you quickly become Word layout...
