General Accounting Office, 2000 OCLC Number: (OCoLC)49043562 Subject: Export controls -- United States. Excerpt: . . . acquire such item from sources within the United States in the absence of export controls; and ( 3 ) is available in sufficient quantity so that the requirement of a license or other authorization with respect to the export of such an item is or would be ineffective. A proposed revision to S. 1712 would authorize the President to designate certain items on the national security control list to require enhanced security and, thus, to have them excluded from the mass market and foreign availability provisions. Although the Export Administration Act does not mention price of an item as a criterion for determining foreign availability, it does set forth two additional 13 factors that are not covered by S. 1712. Thus, S. 1712 does not include the two factors of availability without restriction and comparable in quality to items produced in the United States for determining foreign availability of an item.
