Coles interviews Mark Rogers about Customizing Electrical Panels and Wiring Harnesses. Inside you ll discover these key points: - Custom panels for a sailboat can have a selector switch for the navigation lights that is fed by a single breaker. - To connect a PC to a chart plotter to a VHF radio, use something like the Blue Sea #2408 or similar terminal block with little ring terminals for each connection. - To be able to switch between US and European shore power, install two different inlets on your boat and a selector switch to reconfigure the transformer. - You know it s time to replace the wiring on your boat when you see cracked insulation; the conductors are turning green, black, or crumbling; or if the wiring has been exposed to salt water and/or the navigation lights aren t working properly. Check the wiring in the bilge pump. - Using automotive wire or, worse, housing wire, is illegal. - Make sure wires are properly terminated with crimped connectors or a proper type of...
