The Future of Post-Human Gambling: A Preface to a New Theory of Risk and Caution

By Peter Baofu

Viva Books Private Limited, 2012. Hardcover. Book Condition: New. Is winning in gambling so possible and desirable that, as Flip Wilson once said, "[y]ou can't expect to hit the jackpot if you don't put a few nickels in the machine?" or, as an old-fashioned lottery ad put it, "someone will win the lottery. Just not you [if you do not even buy a ticket]?" (WQ 2011) This appealing view of gambling can be contrasted with an opposite (critical) view, in that "[s]ome Islamic nations prohibit gambling?; with severe punishment for any violation. (WK 2011) Contrary to these different views about gambling (and other claims as will be discussed in the book), gambling (in relation to risk and caution) is neither possible nor desirable to the extent that the respective ideologues (on different sides) would like us to believe. This questioning of the different conventional views about gambling does not mean, however, that there is nothing good in gambling, or that those fields of study (related to gambling) like psychology, sociology, economics, anthropology, probability theory, and so on are worthless. Of course, neither of these extreme views is reasonable either. Instead, this book provides an alternative (better) way to understand...
